# Fun Maths Puzzles

Level 1

Jesse, Beau, Shane, and Kim are waiting in a line. Can you work out their order from these clues?

Beau is not first.

Shane is between Jesse and Beau.

Kim is next to Jesse.

Level 2

Jake made a mistake and multiplied the money in his piggy bank by 10 instead of 2. His answer was $15.50. What should his answer have been?

Level 3

Zac trained for the long jump event. After a few weeks he could jump half as far again as his original jump. His last jump was 3.45 metres. How long was his original jump?

Level 4

We want to make some gift cards 10 cm by 7 cm. What is the maximum we can make from a sheet of card measuring 1 m by 1.5 m?
