

BUILD ME UP

BUILDING CAPACITY OF MATHEMATICS TEACHERS

When: Access to the Learning Management System will be available in 2025 and 2026. Teachers are welcome to start any time!

Aim: To build competence and confidence in secondary mathematics teaching.

How: By helping teachers improve their content knowledge and pedagogies in secondary school maths.

Is this course for you? Target groups include secondary teachers, out-of-field, lacking confidence, beginner, rural, and returning teachers. However, Build Me Up is open to all.

Cost: Thanks to the Department of Education's Strategic Partnerships Program, this program is free for all government schools, and MAV offers it to non-government schools at a low cost.

	Individual	School
Government school	Free	Free
MAV member (non-government school)	\$792	\$2400
MAV non-member (non-government school)	\$990	\$3000

If you are interested in the Build Me Up modules, please complete the registration form: www.mav.vic.edu.au/Resources/Build-Me-Up

The landscape of mathematics education is evolving, and with a revised curriculum and teacher shortages, MAV is stepping up to support our schools. Build Me Up is an on-demand Professional Learning Program designed to empower maths educators and enhance their teaching practices.

If you are teaching mathematics out-of-field, or simply curious to gain more expertise – this course is for you. It's aimed at secondary teachers but primary teachers keen to upskill are warmly welcome.

There are 12 dynamic online modules filled with engaging videos and a wealth of resources, produced by MAV and presented by leading educators. The course is accessible, on-demand and self-paced.

Content

- Comprehensive mathematical content (Levels 7-10)
- Pedagogical guidance
- Support through quarterly live Q&A and networking within the MAV Community.
